Testimonials:

“As our ability to be effective leaders in our organizations becomes more challenging, it is critical that we have the emotional intelligence and authentic leadership skills that are critical to our current and future success. Working with Ginny has allowed me to focus in on these two critical components of leadership. I would not only recommend participating on one of her leadership programs, but also working with Ginny one on one to continue your leadership journey.”

- Shannon

“I have been on a journey to understand my leadership capabilities and had a realization that there is a tremendous amount of information out there that tells us the best strategies to being an effective leader. This vast amount of information made it difficult to understand what is the best strategy for me. I was given the opportunity to take the Leadership Development class which is where I met Ginny. Ginny’s program provided me with a manageable framework to learn about my leadership capabilities. This course helped me to, not only gain a clearer understanding of my strengths, but also how to see and maximize other peoples strengths. Ginny uses self-assessment tools, books, videos, real world experience and self-reflection to help one to capture ones self-awareness. This new framework gives me a focused based to build on so that I can be the leader I want to be and my organization needs.”

- Mike Miller, RSM
